

Immigrant Counselling and Psychotherapy

November 2023

Dear Applicant,

Thank you for your interest in the role of Clinical Manager for icap services. We have two roles.

Our services are offered to the Irish community in Britain and 98% of clients using our services are Irish born or of Irish heritage. Each week we see two hundred people across all our services.

We operate across five days mainly between the hours of 08:30 – 18:00 with some limited late evenings. We can accommodate flexi working and have core hours on Tuesdays, Weds and Thursdays between 10:30 and 15:00hrs. There is limited opportunity for home working due to the collaborative nature of the role.

As Clinical Manager, you will be the first clinical contact for clients approaching us for support and your work will include triage and assessment of new clients approaching the organisation as well as allocations and managing the waiting list for clients wishing to access therapy. As well as icap staff and therapists, you will build relationships with welfare and other advice services supporting survivors.

60 % of our work is delivered from our London centre at Finsbury Park and up to 40% of our work takes place outside London. Given the dispersed nature of the team, the role will require occasional travel, notably to Birmingham. The travel will be limited and pre planned.

As an organisation, we have twenty-five years' experience in providing therapy for adult survivors of institutional abuse. Our services across the country target this group with funding from the Irish Government.

You will join a friendly and committed management team including our administrative team and myself, as Clinical Director. This is an exciting opportunity for an experienced therapist who is enthusiastic about the provision of therapy for those who would not normally be able to pay.

Details of the role and job description are included in this pack. Please return your application to opportunities@icap.org.uk

A handwritten signature in dark ink that reads 'Geraldine Ryan'.
