

About icap

icap offers counselling and therapy services via our clinical centres in London and Birmingham and through our associated outreach services. At the time of writing, in response to the pandemic, a significant portion of our services are offered online or by telephone. Our clients range in age from 23- 83 years. Our services operate 5 days a week until 8pm and we are especially keen to hear from therapists with evening availability.

We believe that many people who would benefit from therapeutic support have traditionally found it difficult to access services. There are many reasons for this, both culturally and as a result of personal experiences. People often may not know about or be able to access our services due to mobility or other issues.

For these reasons we have developed a program of outreach services with a range of Irish partner agencies, and we are committed to work towards enabling access to appropriately tailored therapeutic support to the Irish community. To date, along with therapy services in Finsbury Park, Central Birmingham and via our UK wide network, our services include

- An analytic group for Irish people (North London)
- One to one therapy for users of services onsite in South East and North West London
- A psychosocial group for Irish women and women of Irish heritage
- A psychosocial support group for older Irish men
- An art therapy group entitled “ Making Mondays”
- A psychosocial support group for survivors of institutional abuse
- A psychosocial group for carers.
- A time-limited home therapy service for older frail or housebound people

Our group programme is currently expanding and we have plans to establish pre and post therapy groups as well as further outreach services for older Irish people.
